science and Reason."

BERLIN, May 14.—Count von Rantzau, head of the German peace delegation in communication to the other members of the delegation the next of three notes sent to Premier Clemenceau pointed out that the peace treaty in its present form could not be accepted and could not be signed because it was impossible to fulfill its terms.

SCHEIDEMANN SENDS
APPEAL TO BRITISH

LONDON, May 15.—Philipp Scheidemann, the German premier, sent through the Berlin correspondent of the Daily Herald, the labor newspaper, an appeal to the British people to realize "the appalling position Germany is placed in by the peace conditions."

"We cannot believe that fellow human beings, however much under the influence of a wicked war can really intend to reduce a kindred people to slavery, for that is what these conditions mean."

"We Germans call upon you English not to force us to sign away our birthright and the peace of Europe in our hour of weakness."

EBERT AGAIN STARTS
OPPOSITION TO TREATY

BERLIN, Wednesday, May 14.—via London.—Friedrich Ebert, the German president, in a statement made in the newspaper, forwarders, has reiterated his opposition to the peace terms submitted by the emperor, declaring them unacceptably with conscience and reason and insisting that they must be drastically and fundamentally corrected.

LOWER FREIGHT RATES
FOR TEXAS FIELD OILE. N. Adams, Traffic Secretary Says
Reduction in Traffic Sought by
Oil Men Has Been Recommended.

A reduction in the rates on crude petroleum shipped here from the new Texas oil fields is confidently expected, result of the efforts of E. N. Adams, secretary and traffic manager of the Tulsa Traffic Association, at the oil rates hearing held in St. Louis on April 23.

The reduction in rates will effect a saving of between \$1,000,000 and \$2,000,000 per month to Tulsa oil operators alone, and will give an added impetus to the oil business throughout the country that can hardly be estimated.

"I have just received advice," said Mr. Adams, "that the St. Louis committee had recommended to the Chicago committee that they put into effect a reduction in the rates on the same basis of rates as are now in effect in the state of Oklahoma."

This suggestion on the part of the Tulsa committee is a modification of the Tulsa Traffic Association's rate of 17 cents per 100 pounds on the entire producing fields known as the Wichita Falls, Burkburnett and Ranger districts.

Reduction of 4 Cents

"At present the rates on crude oil from the Wichita Falls and Burkburnett fields is 23 1/2 cents and from the Ranger, Texas, fields 25 cents per 100 pounds. The modification they suggest is a reduction of about 4 cents per hundred."

George Green, general agent for the Frisco at this point stated yesterday that during the month of December the Frisco railroad alone handled some 400 tank cars from these new Texas fields. Tank cars 15 feet in length, 6 feet in diameter, 14 gallons capacity, and figuring 74 pounds per gallon the 4 cents per hundred reduction in rates would effect a saving of about \$1,500,000 for the month over this road alone.

From the time the traffic association took up the question of rates on September 18, to date," said Mr. Adams, "we have had the rates on oil reduced from 37 1/2 cents in all of 22 cents and 25 cents, a great saving to the oil producers and practically saving the oil industry from going to ruin, for it must be remembered that Tulsa oil operators and producers practically own the entire Texas fields."

TIMES I LIKE THE BEST

Times I like the best are those when a few old friends and true friends who know you through and through gather round in working clothes without fussing about the time, just to rest and play awhile.

Hearts at ease and minds content

No one ever proud and great

No one dressed beyond his state

Nor too set in argument

That his temper he will lose

If you differ from his views

Just a few that come to play

Some to joke and some to sing

Till the old folks fairly ring

How the minutes slip away

When you're living people so

Oh how soon they have to go

Give me six or eight old friends

Now and then when day is done

Full of mirth and honest fun

With that which contentment ends

I'll declare with joy sublime

That I've had a real time

WASHINGTON, May 15.—While the probable loss of the navy dirigible C-5 through a treacherous wind current at St. Johns, N. F., today caused some disappointment to naval officials here, the failure of the seaplanes NC-1 and NC-3 to get started on the trans-Atlantic flight caused no apprehension.

It was confidently expected that the planes would be able to leave the NC-4, which arrived at Trepassy Bay
